

Application for Enrollment

CORE Aerospace STEM 2016-17 school year

CORE Aerospace STEM is pleased to serve students interested in Science, Technology, Engineering and Math with an integrated aerospace emphasis. Related occupations are wide and varied, which is why students should begin to pursue their dreams as pilots or as integral persons in the aeronautics industry. This educational program for 7th and 8th grade students could mean an early and credible start to those dreams.

Please seriously consider each part of this application as you complete it. It is meant to be a tool for helping students and parents understand the rigor and accomplishment the program will afford enrolled students and to determine if the prospective student is ready to make the commitment required to be successful in the CORE Aerospace STEM.

Application includes:

- Student Information page
- Signed agreement statement
- Copy of most recent report card
- Copy of student discipline record or statement from current school administrator
- Student Essay—Essay should discuss your interest in STEM or aeronautics and include related experiences, interests, and/or career goals.
- Letter of recommendation from a teacher or administrator from previous school
- Letter of recommendation from a relative (not immediate family) or community member who has worked with the student. Letters should include the following:
 - How long and in what capacity person has known the student
 - Description of student's work ethic and level of responsibility
 - Knowledge of any achievements
 - Description of student's character qualities
- Student/Parent meeting (to be arranged upon the completion of the application)

As part of the application process, students and parent(s) will be referred to and expected to read and agree to the Student/Parent Handbook, which contains policies, procedures and expectations for all CORE students. The handbook may be found on the CORE website home page if you wish to read it prior to the Student/Parent meeting.

Student Information:

Student Name: _____
First, Last

Parent(s) Name: _____

Date of Birth: _____ Current Grade Level in School: _____

Last School Attended: _____

Physical Address: _____

Mailing Address: _____
If different from Physical Address

Parent Email Address: _____

Student Email Address: _____
If Available

Best Phone Number for Contact: _____ Home Cell

Agreement Statement

Please read the following description for CORE Aerospace STEM and sign the agreement statement before completing the rest of the application for enrollment.

As a derivative of CORE @ The Camptonville Academy Charter School, the CORE Aerospace STEM upholds the same special vision and purpose for its students: To provide unique educational opportunities nurturing far-reaching success for students. In addition CORE students are ones becoming college and/or career ready as well as becoming persons of strong character with growth mindsets.

Parents receive support to launch their students toward a career path. Though students will attend classes 3 days weekly to receive instruction and support in core areas, the CORE Aerospace STEM is nevertheless an **independent study program** and therefore assumes and relies on the involvement of parents. Parents will be available and responsible to review, teach/reteach, or enhance the instruction at home, oversee homework and projects, grade school work as requested, ensure a studious working environment, commit to punctuality and ongoing communication between teachers and student, and monitor pacing and achievement.

Students will enjoy collaborating and learning from peers with like-minded goals and aspirations. They will continually engage in hands-on projects, hear from field experts, attend aviation related field trips, and receive expert instruction from credentialed teachers. Students are expected to involve their parents in at-home learning, communicate a need for help, attend all classes and field trips, maintain a “B” average or higher, and demonstrate respectful character to teachers, peers, and parents at all times.

I am looking forward to involvement in the CORE Aerospace STEM and agree to do my part as outlined above.
