CORE Butte Charter

The School Accountability Report Card (SARC), which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>. For additional information about the school, parents and community members should contact the school principal or the district office.

I. Data and Access

DataQuest

DataQuest is an online data tool located at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2007-08)

This section provides information about the school, its programs and its goals.

CORE Butte Charter School (CORE) offers our community and constituents an alternative to traditional schools, especially focusing on educationally disadvantaged children who feel disenfranchised from the traditional system. We do this through a standards-based, personalized approach in which our teachers teach and our parents facilitate the learning of their own children. Our teachers and parents build high-performing teams that are dedicated to the academic success of each child.

Opportunities for Parental Involvement (School Year 2007-08)

This section provides information about opportunities for parents to become involved with school activities.

Contact Person Name: Jonelle Pena

Contact Person Phone Number: 530-894-3952

Parents are fully integrated in the learning process, from deciding whether CORE is the appropriate placement for their children, to working with teachers to select curriculum, to instruction and assessment. In addition, parents serve on both our Charter Council and Board of Directors as established in our school bylaws.

IV. School Facilities

School Facility Conditions

This section provides information about the condition of the school's grounds, buildings, and restrooms, and a description of any planned or recently completed facility improvements.

General

CORE takes great efforts to ensure that our learning centers are clean, safe, and functional. To assist in this effort, the district uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the school office, at the district office, or on the Internet at [Web site address].

Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Age of School Buildings

This school has 8 classrooms, a library, and 8 teacher/parent offices. The main campus was formerly the Butte College Chico site. The facility was remodeled for the purposes of CORE Butte Charter in the summer of 2007, meeting the requirements and inspections of the City of Chico and the Chico Fire Department.

Maintenance and Repair

Our staff reports any maintenance or repair issues during our staff and safety meeting at least once a month. The administration ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner.

Cleaning Process and Schedule

The facility is cleaned twice weekly by an independent contractor. The principal works regularly with the contractor to develop cleaning schedules to ensure a clean and safe school.

Site inspections are completed annually in September. Our learning center sites were found in good repair as documented in a completed inspection report available on request. Minor items such as books stacked on top of cabinets were corrected immediately. The Paradise site was inspected on November 11, 2008. The Chico site

Planned Improvement

Neither Paradise nor Chico site has plans for facilities projects at this time. A local developer has suggested a collaborative project that would not begin until 2014.

VII. Curriculum and Instructional Materials

Quality, Currency, and Availability of Textbooks and Instructional Materials (School Year 2008-09)

Textbook Information

This section provides information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school, and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

The state approved texts are reviewed by our curriculum committee at each cycle of the curriculum frameworks. Each is analyzed for its consistency with the Personalized Learning methodology of instruction, with plenty of support for parent/teachers and students who will be in an independent study program. Specific recommended texts are included with descriptions in our course catalog. However, all state approved texts are available to our students and can be selected by our teachers if the particular text is consistent with the students learning style and abilities.

This section provides information if any insufficiency exists, and the reason that each pupil does not have sufficient textbooks or instructional materials.

VIII. School Finances

Expenditures Per Pupil and School Site Teacher Salaries (Fiscal Year 2006-07)

This table displays a comparison of the school's per pupil expenditures from unrestricted (basic) sources with other schools in the district and throughout the state, and a comparison of the average teacher salary at the school site with average teacher salaries at the district and state levels. Detailed information regarding school expenditures can be found at the Current Expense of Education Web page at <http://www.cde.ca.gov/ds/fd/ec/> and teacher salaries can be found on the Certificated Salaries and Benefits Web page at <http://www.cde.ca.gov/ds/fd/cs/>.

IX. Student Performance

California Standards Tests

The California Standards Tests (CSTs) show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades 2 through 11; science in grades 5, 8, and 9 through 11; and history-social science in grades 8, and 10 through 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found on the Standardized Testing and Reporting (STAR) Results Web page at <http://star.cde.ca.gov>. Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

California Physical Fitness Test Results (School Year 2007-08)

The California Physical Fitness Test is administered to students in grades 5, 7, and 9 only. This table displays by grade level the percent of students meeting the healthy fitness zone on all six fitness standards for the most recent testing period. Detailed information regarding this test, and comparisons of a school's test results to the district and state levels, may be found at the Physical Fitness Testing Web page at <http://www.cde.ca.gov/ta/tg/pf/>. Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

Grade Level	Percent of Students Meeting Fitness Standards
5	27.30%
7	40.00%
9	0.00%

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the API Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the AYP Web page <http://www.cde.ca.gov/ta/ac/ay/>.

AYP Overall and by Criteria (School Year 2007-08)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

Federal Intervention Program (School Year 2008-09)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the AYP Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

XI. School Completion and Postsecondary Preparation

Admission Requirements for California Public Universities

University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements please visit the University of California Web site at <http://www.universityofcalifornia.edu/admissions/general.html>.

California State University

Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements please visit the California State University Web site at <http://www.calstate.edu/admission/>.

Dropout Rate and Graduation Rate

This table displays the school's one-year dropout rates and graduation rates for the most recent three-year period for which data is available. For comparison purposes, data are also provided at the district and state levels. Detailed information about dropout rates and graduation rates can be found on the DataQuest Web page at <http://dq.cde.ca.gov/dataquest/>.

Completion of High School Graduation Requirements

Students in California public schools must pass both the English-language arts and mathematics portions of the California High School Exit Examination (CAHSEE) to receive a high school diploma. For students who began the 2007-08 school year in grade 12, as evidenced by that school year's October CBEDS enrollment, this table displays by student group the percent who met all state and local graduation requirements for grade 12 completion, including having passed both portions of the CAHSEE or received a local waiver or state exemption. Detailed information about the CAHSEE can be found at the CAHSEE Web page at <http://www.cde.ca.gov/ta/tg/hs/>. Note: "N/A" means that the student group is not numerically significant.

Career Technical Education Programs (School Year 2007-08)

This section provides information about the Career Technical Education (CTE) programs and lists programs offered at the school.

CORE schools integrate career technical education at all levels, interwoven throughout all subject areas. Each center offers a Career Exploration Course for high school students. CORE Butte students attend ROP classes offered through Butte County at Paradise, Pleasant Valley, and Chico High School. Butte County has presented the Workability program to our Special Education students.

Career Technical Education Participation (School Year 2007-08)

This table displays information about participation in the school's CTE programs.

XII. Instructional Planning and Scheduling

Professional Development

This section provides information on how teachers and staff are trained for instructional improvement.

New teachers participate in an intense two-day training focusing on the Personalized Learning Model of independent study. Professional development beyond the initial training is ongoing at every bi-monthly staff meeting, and twice yearly training meetings at the beginning and end of each year. In addition, each year, teachers are asked to complete a Professional Goals worksheet. This goal sheet outlines the teacher's goals for the coming year and any requests for professional development that the school may support. Teachers are encouraged and financially supported when possible to attend content, instructional, and curriculum specific training throughout the year.

Professional Development Days

This table displays information on the annual number of school days dedicated to staff development for the most recent three-year period.
